

MEMORANDUM FOR: Deputy Director for Support
SUBJECT : Weekly Report - Office of Finance

Following is a summary of certain activities of the Office of Finance during the week ending 23 February 1973:

1. Payroll Status

The review of Pay Period 26 test material has been completed and the results, with the exception of four minor conditions, indicate that all programs are operating properly. Since the four problem areas do not directly affect the computation of salary entitlements, we have decided to proceed to our joint (Audit/SIPS/Finance) testing program which will stress and challenge the system to confirm the reliability of the computer processes.
